

**To doctors, nurses and all support staff  
in the Health sector**

## **Thanks from all of us...**

It's important for you to know that we recognize and value your devotion and unfailing care. Thank you for your diligence and for the kindness with which you treat our physical and related needs. We know just how varied are the moods and attitudes of your patients, and understand that your home life can often produce its own stress. You play a vital role on behalf of the community, and I want to encourage you to continue to persevere, because we have such need of you

For those who are close to my heart and to yours, the great physician, the greatest healer of all, is none other than the Lord Jesus Christ, the Son of God Himself, who is often, like you, undervalued by those with whom He is associated. We never refuse your good care, though there be occasional lapses within your profession. By the same token, I ask you to extend the same forbearance for my brief message. I trust it will be seen as both simple and true. It is conveyed in a spirit of love, appreciation and concern.

What's been happening on this planet recently is an indication of what will take place soon. It's about the return of the Person whose bones are not in a tomb in the Middle East, but is risen; after He offered Himself as the necessary sacrifice for you on the cross. Now He invites you to trust in Him, if you haven't already done so, and to take advantage of what He has done, and will do for you.

*“God so loved the world that He gave His only begotten son, that whosoever believes in Him, shall not perish, but have everlasting life” (John 3:16)*

*“He who has the Son has life,  
he who has not the Son of God has not life” (1 John 5:12)*

Thanks for your excellent care for our natural lives. In return, let me express my concern for your eternity.

Michel for Vision 2020
